INFO COVID-19

Watch for symptoms.

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear **2-14 days after exposure to the virus**. People with these symptoms may have COVID-19:

Fever or chills

- Cough
- Shortness of breath or difficulty breathing.
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Camp administrators may consider implementing several strategies to prepare for when someone gets sick.

Advise Sick Individuals of Home Isolation Criteria

- Sick staff members or campers should not return to camp until they have met test.

Isolate Who are Sick:

- Make sure that staff and families know that they (staff) or their children (families) should not come to camp, and that they should notify camp officials (the designated COVID-19 point of contact) if they (staff) or their child (families) become sick with COVID-19 symptoms, test positive for COVID-19, or have been exposed to someone with symptoms or a confirmed or suspected case.
- Immediately separate staff and campers with COVID-19 symptoms (such as fever, cough, or shortness of breath) at camp. Individuals who are sick should be cared for caring for yourself or others who are sick.

Your Guide to Masks:

Masks offer some protection to the wearer and are also meant to protect those around the wearer in case they are infected with the virus that causes COVID-19.

masks are required.

How to Select

When selecting a mask, there are many choices. Here are some do's and don'ts.

DO choose masks that

Have two or more layers of washable, breathable fabric

Completely cover your nose and mouth

Fit snugly against the sides of your face and don't have gaps

Have a nose wire to prevent air from leaking out of the top of the mask

Gaiters & face shields

Wear a gaiter with two layers or fold it to make two layers.

Not recommended: Evaluation of face shields is ongoing, but effectiveness is unknown at this time.

Children

Find a mask that is made for children to help ensure proper fit.

Check to be sure the mask fits snugly over the nose and mouth and under the chin and that there are no gaps around the sides.

Do NOT put on children younger than 2 years old

Hand Hygiene and Respiratory Etiquette:

Teach and reinforce handwashing with soap and water for at least 20 seconds and increase monitoring to ensure adherence among campers and staff.

If soap and water are not readily available, hand sanitizer that contains at least 60% alcohol can be used (for staff and older children who can safely use hand sanitizer).

Encourage staff and campers to cover coughs and sneezes with a tissue. Used tissues should be thrown in the trash and hands washed immediately with soap and water for at least 20 seconds.

If soap and water are not readily available, hand sanitizer that contains at least 60% alcohol can be used (for staff and older campers who can safely use hand sanitizer).
